

New Travelodge in Stockport

We have signed hotel operator Travelodge for our £100m Grand Central scheme in Stockport town centre.

We have consent for a 400,000 sq ft mixed-use extension to the existing Grand Central Leisure Park and an additional multi-storey car park of 1,500 spaces in the Greater Manchester town.

The new scheme will include more shops, restaurants and cafes, improved leisure facilities, new office accommodation, improvements to the swimming pool, 200 flats and a new hotel and improved public realm.

Travelodge has signed for 114 bedrooms in a new building at the heart of the new scheme immediately overlooking the main railway station.

Matt Ward, senior development manager, said: "We are very pleased to have secured this early pre-letting to Travelodge as part of our development proposals for Grand Central.

"This is not an easy time to be bringing forward such ambitious and large scale developments like the one we are proposing for Grand Central, but by securing these types of high quality pre-lettings within the scheme, this will greatly assist us in delivering these exciting plans with Stockport Council."
